**Hilltown Community
Health Center**

HCHC's School-Based Dental Outreach program was developed in 2009 for the Gateway Regional School District. We're happy to now be offering affordable and convenient dental services to the students at New Hingham Regional Elementary.

Most Commonly Asked Questions

How do I sign up my child?

A permission and medical history form is sent home at the beginning of each school year. Complete and return these to your child's school. These forms are also available for download on our web site, www.hchcweb.org/mobile-dental.

Do I have to be present for my child to be seen?

No, you do not have to be present for your child to be seen. This is one of the many perks of your child using the school based health center. You do not miss work and the time your child misses from school is much more minimal.

How will you communicate with me about my child's care?

Communication with the parent is very important to us. We send home a services rendered form informing the parent of what services your child received. If the child needs restorative services, then a treatment plan will be sent home to sign. No restorative services will be performed without consent.

Do you accept insurance?

Yes, we accept most dental insurance, including Masshealth. No child will be denied services for the inability to pay.

What if my child needs a summer appointment?

The provider will be located at the Huntington Health Center and Worthington Health Center in the summer. We would be happy to continue your child's care there.

The HCHC School-Based Dental Outreach program complies with all federal and state privacy regulations (HIPAA). We will use your protected health information only for treatment and billing purposes, and we will obtain your permission before releasing your medical records except as may be required by law.
