Primary Care: Why It Matters and Should Matter to You!

Primary care is the foundation of a strong, health care system, with a focus on preventative medicine. For over 65 years, HCHC's mission has been to provide accessible, affordable services to ensure the health of all our communities. Through our integrated health care model we provide a wide range of services. In addition to medical and oral health/dental services, we provide behavioral/mental health services, substance abuse treatment, eye care, physical therapy, weight management and nutrition counseling, and laboratory services. We also provide numerous community services and supports through our Community Center.

By working for HCHC you would directly serve your community, where we work as a team to ensure that you, your families and our communities receive the care and services needed to maintain health and thrive.

If you believe in our mission and want to make a difference in the lives of the people in Western Massachusetts, come work for Hilltown Community Health Center! Contact us at info@hchcweb.org
